

Gustav Ryd joins Scila from Orc Software

Gustav Ryd has joined the Scila team. Gustav left Orc Software for Scila and is among the best derivatives evaluaters in the market. Gustav will focus on making Scila even better for derivatives surveillance.

Gustav holds a PhD in Mathematics from KTH (Royal Institute of Technology) and an extensive experience from derivatives trading for a large number of exchanges working as a quantitative developer at Orc Software. At Orc, Gustav's main areas were Valuation and risk for options and structured products, Volatility management, Automated option trading and Algorithmic trading.
